

Break Room Protective Measures

Please follow the guidelines below to help prevent COVID-19 staff to staff transmission.

Maintain two metres distance from others.

Clean and disinfect surfaces with disinfectant wipes before and after eating.

Practice frequent hand hygiene, including before and after eating or drinking.

Sneeze or cough into your elbow.

Take your break at the scheduled time to help with maintaining physical distance.

When not eating or drinking, a medical mask **MUST** be worn.

Take your personal belongings home after every shift.

Do not share food.

Take lunch bag home at the end of each shift.

Frequently clean and disinfect high touch surfaces.

In the event of an outbreak, additional measures may be required.
